## EXPO GUIDE

OCTOBER 16-18 • HILTON CHICAGO

## Welcome to FIA's 34th Annual Expo!

Every year, this conference continues to grow and develop with more informative programming, thought leadership, exciting exhibitors and networking opportunities. At Expo 2018, we're focusing on innovation, sustainable growth and building competitive markets, and you'll see that reflected in the sessions and across the exhibition floor over the next three days.

For the fourth year in a row, we're hosting the FIA Innovators Pavilion, a showcase for 15 fintech startups providing exciting new and potentially disruptive products and services for the cleared derivatives industry. I encourage you to attend our Meet the Innovators panel on Wednesday and hear from some of these companies directly. Other forward-looking sessions will address digital assets, the next generation of futures traders and workforce and executive diversity.

Our program will also feature discussions on the topics that matter most to your businesses, including CCP risk, Libor transition, cross-border regulation, and swap market reform. And, as always, you'll hear about industry trends from exchange leaders and clearinghouse executives.

We are joined by an incredible group of speakers this year, including CFTC Chairman J. Christopher Giancarlo and newly minted Commissioner Dan Berkovitz. Our keynote speaker this year is Jeremy Heimans, who will tell us about "new power" and how that is changing an already hyperconnected world.

Whether you are an emerging leader or a seasoned executive, the Expo Learning Lab provides you with the chance to explore valuable topics driving the futures and cleared derivatives industry. In addition, our dynamic trade show features more than 130 exhibitors showcasing products, services and solutions for the industry.

Our commitment to charity and giving back continues with the Great Chicago Steak Out benefiting the Greater Chicago Food Depository. Since 2008, we've raised \$3.8 million to help feed those in need, so please join us and help us push over the \$4 million mark!

I hope you find Expo to be insightful, engaging and educational, and I look forward to our discussions over the next few days!
