FIA DUES CATEGORY DEFINITIONS

COMMODITY FIRMS

Members of this category are market participants who use cleared derivatives to manage commodity price risk for themselves or on behalf of end users.

CUSTODIAN BANKS

Members of this category are banks providing custodial services and/or settlement banking systems for their customers.

FUNDS & ADVISORS

Members of this category include asset managers, hedge funds, pension funds, CPOs and other entities that manage money on behalf of investors.

HOUSE CLEARING BANKS

Members of this category are banks providing clearing services for their House business only.

NON-CLEARING BROKERS

Members of this category are firms who execute transactions on behalf of customers but do not clear on behalf of customers.

PROFESSIONAL SERVICES

Members of this category provide professional services within the futures industry, such as consultancy firms, law firms, accountancy firms and public relations firms.

PRINCIPAL TRADING FIRMS

Firms that do not have clients and use their own capital for trading in cleared derivatives markets.

TECHNOLOGY FIRMS

Members of this category provide products and services to the cleared derivatives industry such as software solutions, hardware, and other related activities.

TRADING PLATFORMS & CCPS

Members of this category include regulated trading venues and CCPs providing trading and/or clearing functionality for cleared derivatives products registered with, or regulated by, a government agency. This category also includes Organized Trading Facilities (OTFs), Multilateral Trading Facilities (MTFs) and Swap Execution Facilities (SEFs).
